

TEMPORARY MORTAR FOR MINI-BRICKS

Follow this recipe and you can make a temporary mortar that will wash away with water when you've finished.

WHAT YOU'LL NEED:

- Silica Sand (available at most home improvement stores)
- Pottery Clay (available at most art supply stores)
- Water

DIRECTIONS:

- 1) Mix 2 parts Silica Sand with 1 part Pottery Clay.
- 2) Add water until mixture is workable.
- 3) Apply between bricks to hold them together.
- 4) Rinse away with water when finished.
